- **China**
- **Worldwide**

Conceptualizing, Operating, Controlling  
**10 Microventures**

**Get The Experience • Get The Exposure • Get Ready**  
**Do You Have What It Takes?**

Lifebushido is seeking to hire top global MBA students for a unique part-time entrepreneurial non-paid internship for 10 weeks. MBA Virtual Intern runs year-round on quarterly cycle of 10 weeks of 10 hours per work per week for 100 hours.

MBA Interns will work on one of 10 microventures involving business, creative, or social entrepreneur focus including going from concept to launch to revenue in 10 weeks. Lifebushido is building a global network of people working part-time from home with flexible hours using their unique talents.

Because this internship is year-round and part-time at 10 hours per week for 10 weeks, students can participate during the school year as well as the summer. During the summer, students could participate in MBA Virtual Intern in addition to a full-time job or other full-time internship to add more experience and value to their resume.

**Lifebushido is building a global network** of people working part-time from home with flexible hours using their unique talents.

**3 Easy Steps**

1. Review Website
